And if this rule shall be suspended or modified as aforesaid, the promoters of any Private Bill which is presented after the time hereinbefore limited, or for which the petition has been received after the time hereinbefore limited, shall in either case pay double the fees required in respect of such Bill by this rule, unless the House shall order to the contrary.

98. (1) Any person seeking to obtain any Private Bill shall deposit with the Clerk of the House, eight clear days before the opening of the Session.

- (a) a printed copy of such Bill;

If the Bill shall not pass second reading, one-half of the fees shall be returned.

100. (1) All applications to the Legislative Assembly for Private Bills of any nature whatsoever shall require the publication of a notice clearly and distinctly specifying the nature and object of the application, and when the application refers to any proposed work, indicating sufficiently the location of the work, to be signed by or on behalf of the applicant.

(2) Such notice shall be published in *The British Columbia Gazette* and once a week in one leading daily newspaper freely circulating in all parts of the Province. The notice in such newspaper to appear on Wednesday of each week.

(4) The publication of such notice shall in all cases be continued for a period of four weeks during the interval of time between the close of the next preceding Session and the consideration of the petition.

101. Every petition signed by an agent or attorney in fact shall be accompanied by the authority of such agent or attorney in fact, and the petition shall not be deemed to be filed with the Clerk until this is done.

103. (1) All Private Bills for Acts of incorporation shall be so framed as to incorporate by reference to the causes of the general Acts relating to the details to be provided for by such Bills: Special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof in which the general Act is proposed to be departed from. Bills which are not framed in accordance with this Standing Order shall be recast by the promoters and reprinted at their expense before any Committee passes upon the clauses.

(2) Every Bill for an Act of incorporation, where a form of model Bill has been adopted, shall be drawn in accordance with the model Bill (copies of model Bills may be obtained from the Clerk of the House). Any provisions contained in any such Bill which are not in accord with the model Bill shall be inserted between brackets or underlined, and shall be so printed.

*Preamble*—Western Energy has proposed to install a plant at Cowichan Bay, B.C., which will recover wood-waste material from Doman's sawmill at the same location.

The first of its type, the proposed plant will convert the mill waste into a solid product which may viably substitute fossil fuels. Thus, the installation will maximize the value of the forest resource, while at the same time overcoming a waste problem.

The plant will utilize a dry technique, thus avoiding probable process liquid discharges. Aerial discharges from the plant

will meet both the current and future objectives of the Pollution Control Branch established for new plants. In fact, the aerial discharges from the proposed plant will be 60 per cent below the allowable concentration of particulates under current objectives and 20 per cent below future objectives. Moreover, in this context no oxides of sulphur, nitrogen, or other deleterious substances will be discharged.

Western Energy, of 333 Haliburton Street, Nanaimo, B.C., hereby applies to the Director for a permit to discharge or emit contaminant(s) into the air from a hog fuel preparation (utilization) system located at Tzouhalem Road, adjacent to Doman's sawmill, Cowichan Bay, and gives notice of application to all persons affected.

The land upon which the works are located is part of Parcel 1, Lot 1, Plan 19378, Section 12, Ranges 2 and 3, Cowichan District; Parcel 2, Parcel A (CT263021) of Section 12, Range 2, Cowichan District; Parcel 3, Section 12, Range 3, Cowichan District (except Lot 1, Plan 19378).

The discharge or emission shall be located as indicated in site plan.

The rate of discharge is (dry basis): (a) Maximum, 110,000 SCFM; duration, three hours a day; frequency, three times a day. (b) Average daily (based on normal daily operating period), 92,000 SCFM.

The operating period during which contaminant(s) will be discharged is continuous.

The characteristics of the contaminant(s) to be discharged are solids, 0.04 gr/SCF.

The type of treatment to be applied to the contaminant(s) is cyclone.

I, P. Hayward, Secretary-Treasurer, hereby certify that a copy of this application has been received by the Cowichan Valley Regional District.

This application, dated October 26, 1977, was posted on the ground in accordance with the Pollution Control Regulations.
